SUMMARY

I'm a full stack developer skilled in technologies like HTML, CSS, JavaScript, React.js, Next.js, Node.js, Express.js, NoSQL, and MySQL. I started coding in 2021 and have since built complex projects such as a book-selling platform and a food ordering website, and managing diverse client needs on Upwork. My quick learning ability, strong problem-solving skills, and team-oriented approach make me the right candidate to drive innovation and efficiently execute projects within your company.

SELECTED PROJECTS

BiteZ
Food ordering website

Skills: Next.js, Tailwind css, TypeScript, Stripe , Node js, Express js, ux/ui, MongoDB, Responsive Design, Auth0, React Query

CERTIFICATIONS

- NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)
- The Complete 2024 Web Development Bootcamp (62 total houres)
- 100 Days of Code: The Complete Python Pro Bootcamp

EXPERIENCE

Frontend Developer
Metridash Â· Full-time | 2023 - 2023

As my first job, I established a strong collaborative foundation creating websites using Next JS and React Native.

Project Lead
MISS SAVAGE SP. Z O.O. | 2023 - 2023

In this leadership role, I managed project coordination and developed frontends, working closely with backend developers and designers. This position expanded my technical, leadership, and project management skills.

FullStack Developer
Freelance on Upwork | 2023 - 2023

As a freelancer, I specialized in creating responsive e-commerce stores and templates, integrating functionality with aesthetic design. This experience enhanced my skills in responsive design and full-stack development, producing complete, market-ready digital solutions.

Back-End Development Focus & Certification
Continued Education | 2023 - 2024

I focused on advancing my backend skills through courses in Node.js and Python, mastering MVC architectures and REST APIs. This effort included over 160 hours of study, culminating in certifications from reputable Udemy courses.

SKILLS

HTML, CSS/SCSS, Tailwind css, JavaScript, TypeScript React js, React Native, Redux toolkit, Jest, Next.js, Node js Express js, Python, Django, Flask, selenium, PostgreSQL MySql, MongoDB, Mongoose, Git/GitHub, RESTful API REST APIs.
